

Munich University Days
**(MUDS) - ECOSOCIAL
MARKET ECONOMY AND
SUSTAINABILITY**

RCE MUNICH

TRANSFORMATIVE INITIATIVE

Since 2010, the MUDs have been organized each semester by students from Munich in cooperation with our RCE. Bringing together different universities and faculties across Munich, the students select a topic and organize, promote, and evaluate the event. Within the context of ESD, one important social competence is the ability to act as a multiplier: participants not only learn about sustainable practices but also actively engage in them in a hands-on way.
